SMARTBoard ~ "What's It Good For Anyway?"

Tuesday ~ **SOLD OUT!** June 16th (8:00-11:00 a.m.) Monday ~ **SEATS AVAILABLE** July 27th (8:00-11:00 a.m.)

The morning's presentation-style session, "What's It Good For Anyway?" will include a multitude of ideas on how to successfully incorporate the SMARTBoard into your classroom. From classroom management tools, to time saving tips, to interactive lesson ideas, this workshop will help you understand the capabilities of this awesome piece of classroom technology beyond being a glorified whiteboard.

SMARTBoard ~ "Show Me How To Make That!"

Tuesday ~ June 16th (12:00-3:00 p.m.) Monday ~ July 27th (12:00-3:00 p.m.)

This afternoon SMARTBoard session, "Show Me How To Make That!" will be a hands-on step-by-step session to teach the components of the SMART Notebook 10 software. Don't let another day go by wishing you knew how to use your board more effectively.

Advanced SMARTBoard

Wednesday ~ June 17th (8:00-11:00 a.m.) Tuesday ~ July 28th (8:00-11:00 a.m.)

Have you been to our Beginner's Workshop and want to take your SMARTBoard skills one step further? This session will demonstrate different ways to use your SMARTBoard beyond the basic write, print, and save features. We will give you new ideas to use, as well as point out some tricks to help you work SMARTer and not harder! Learning how to use the export feature will provide many new options for your classroom! Your students will be excited and motivated...so will you.

SMARTBoard ~ Make and Take

Wednesday ~ June 17th (12:00-3:00 p.m.) – **SOLD OUT!**

This new style of session will literally be a "workshop". Join us for a completely hands-on afternoon to work on lessons, classroom management tools, independent learning activities, and games for the upcoming school year. This is a great workshop for you if you have already been using the SMARTBoard software, attended some of our SMARTBoard training, and are ready to create some exciting activities to use on your SMARTBoard with our assistance. Don't worry, we will also be giving you fresh new ideas and templates as well!

21st Century Administrator

Thursday ~ June 18th (8:00-11:00 a.m.)

Join us for a morning of "Talking Tech". This presentation-style session will provide an overview of what your teachers want to do in their classrooms, and you will better understand their excitement and motivation to use technology within the educational setting. Our morning will motivate you as well. Let us help you lead by setting an example of moving forward in a digital world.

10 Ways to Shake Things Up

Thursday ~ June 18th (12:00-3:00 p.m.)

We will be counting down 10 exciting ways to "Shake Things Up" for the upcoming school year in this presentation-style workshop! Time will be provided for sharing and collaborating on implementing these ideas within YOUR classrooms. Bring us a lesson that you would like to "Shake Up", and we will work together to give you some ideas on just how to do it!

Wiki: The Easy Website Alternative

Friday ~ June 19th (8:00-11:00 a.m.)

Would you like to have your own easy to update FREE classroom website? Would you like your students to be able to contribute content and help update the class site? Are you still wondering, "What's a wiki?" Don't worry, we are asked that all of the time. "Wiki" is the Hawaiian word for "quick". So the answer is...a "QUICK" website. This session will show you HOW to create this valuable classroom tool. A wiki will allow your students to work collaboratively on projects, your students' parents to check out assignments or other up-to-date information that is taking place, and web space to post various classroom resources. We will lead you through

a hands-on portion to give you immediate practice with your newly acquired wiki. Examples of how educators are using this web 2.0 tool will be introduced so you can successfully implement it in YOUR classroom. You will need to have access to an email account during this session. If you cannot access your email from outside your school, we can show you how to easily register for a Gmail account during this session.

Let's Make a Movie with Windows Movie Maker

Friday ~ June 19th (12:00-3:00 p.m.)

Maybe you didn't know it, but you have the power to bring your students' work to life using the FREE software that is ALREADY on your computer. Not sure if you have Moviemaker on your computer? Check. It comes standard with Windows! We will guide you through using this program with a hands-on step-by-step workshop. You will be amazed at the student-produced work after allowing them to use this program for digital storytelling, alternative assessments, and a multitude of other integration ideas including its use with United Streaming!

Picture This: Using Multimedia to Engage Students

Tuesday ~ July 28th (12:00-3:00 p.m.)

Picture This...A classroom full of students who are EXCITED to learn. During this presentation-style session we will show you a variety of ways to use multimedia to liven up your instruction. We will also give you ideas for implementing United Streaming beyond showing streaming video! YouTube videos are another great way to engage the kids during your lesson. Oh it's blocked at your school? We can show you how to download them at home for use at school! We will also tell you about FREE multimedia software that you can use WITH your students to assess and enhance the lessons that you teach.

Podcasting 101: School Edition

Wednesday ~ July 29th (8:00-11:00 a.m.)

Podcasting has never been easier OR cheaper than through the use of Audacity and GCast. These two great resources are FREE!! The first portion of this workshop will teach you the basics of using Audacity to create an mp3 file. The second portion will cover the steps needed to turn your newly created mp3 file into a podcast that can be posted online for student, parent, and community subscribers. Join us for this fun and easy-to-follow workshop. You will need to have access to an email account during this session. If you cannot access your email from outside your school, we can show you how to easily register for a Gmail account during this session.

3 Big Ways to Use Web 2.0

Wednesday ~ July 29th (12:00-3:00 p.m.)

Animoto, Glogster and Voicethread are 3 highly motivating and interactive 2.0 tools that students in our classes LOVE. This hands-on style workshop will lead you through all three sites and give you time to practice so you will feel comfortable using them with your students! Bring a lesson you want to enhance and we will show you how!

Google Magic: Captivate, Motivate, and Educate You Students

Thursday ~ July 30th (8:00-11:00 a.m.)

Did you know that Google offers a number of FREE tools that can enhance what you teach? Through the use of Google Docs, you can have students work collaboratively from any computer to effectively generate documents, spreadsheets, and presentations. We can also show you how to use Google Spreadsheets to create an online test that students can take from any computer.

Google Earth: It's Not just For Social Studies Anymore

Thursday ~ July 30th (12:00-3:00 p.m.)

Learn how to fully integrate Google Earth across the curriculum with advanced placemarks. We will show you several examples of interdisciplinary lessons, have you participate in a sample activity and then give time to help you create a lesson of your own. Don't teach Social Studies? Don't worry! Google Earth is for every classroom!
